

A Letter of Support for TSA

Please feel free to send the below letter to any of the colleges you may be considering that might want to know the value and opportunities that TSA provides. This letter may also be used by current college students and alumni to raise awareness about TSA.

Dear [*insert name of college admissions officer*],

The Technology Student Association (TSA) is a national career and technical student organization (CTSO) of students engaged in science, technology, engineering and mathematics (STEM). Open to students enrolled in or who have completed technology and engineering education courses, TSA's membership includes over 250,000 middle and high school students in approximately 2,500 schools spanning the country. TSA is supported by educators, parents and business leaders who believe in the need for a technologically literate society.

Students who have been involved with TSA have competencies to ensure their college success:

- Leadership capability
- Teamwork and presentation skills
- Innovation and problem solving aptitude
- Public speaking experience
- Strong interpersonal communication
- Community service participation
- Accomplished work and study habits
- Knowledge of a wide variety of STEM concepts

Thank you for considering the value that applicants with a TSA background can offer your university.

Sincerely,

[*Insert your name here*]
