

Mechanical Engineering - 2027 Design Challenge

The distance for the contest field for 2027 will be nine feet (9'). The front of the cornhole, regulation size (4ft x 2ft) board will be 9' from the front of the firing line. The scoring area will consist of a 2' x 4' regulation cornhole board and 1' perimeter on the floor around the front and sides of the cornhole board.

Both members of the team must launch half of the cornhole bags in one of the firing ranges. Example: Team member 1 will launch four (4) bags in firing range 1. Then, Team member 2 will launch four (4) bags in firing range 2, within the allotted time.
